THYME AND CELERY PROGRAMME

Day1: Same day of transplanting apply as a drench at the base of the plant at a cool time:

DRENCH only: Do not apply over the plant.

X-tra Power(30 ml/gal) + **Harvest More 10:55:10**(2tsp/gal) + **CalGuard**(10ml/gal) + **Nitro-Plus 23**(15ml/gal)

FOLIAR apply:

7-10 days : **Harvest More 10:55:10**(2tsp/gal) + **Nitro-Plus 23**(15ml/gal) + **Vegetable Vine Mix**(30ml/gal) + **Top Cop**(15ml/gal)

10 days: **Nitro Plus 23**(30ml/gal) + **Vegetable Vine Mix**(30ml/gal) + **X-cyte**(5ml/gal) + **Top Cop**(15ml/gal) (Applied over plant and as a soil drench)

10 days: **Nitro Plus 23**(30ml/gal) + **Vegetable Vine Mix**(30ml/gal) + **Top Cop**(15ml/gal) + **Golden Pest Spray Oil**(30ml/gal)

10 days: **Folizyme**(30ml/gal) + **Stimulate**(5ml/4gal) + **Top Cop**(15ml/gal) + **Harvest More 5:5:45**(2tsp/gal) (Applied over plant and as a soil drench)

10 days: **Folizyme**(30ml/gal) + **Harvest More 5:5:45**(2tsp/gal) + **Golden Pest Spray Oil**(30ml/gal) (Applied over plant and as a soil drench)

Soil Applied fertilizer:

Starter Fertiliser- pre-Plant incorporate ½ bag , 0:23:25 made using Triple Super Phosphate (TSP) as the phosphate source and Muriate of Potash (½ bag TSP; ½ bag MOP).

Apply Soil Applied fertilizer 12:12:17+2 every 3-4 weeks or as needed.

Soil applied Fertilizers may need to be adjusted as the products increase efficiency of uptake. Review fertilizer application intervals and quantity.

- Farmers are encouraged to contact **MAFAS LTD** personnel for further information on effective disease and pest control on crop production
- Seedlings can be sprayed/drenched with **Cal-Guard** 10ml/gall in the nursery prior to transplanting to protect against damping off
- **X-tra Power** , **Stimulate** have strong NEMATICIDAL PROPERTIES when applied to soil as a drench at the base of the plant
- **Top Cop** may be applied at 30ml/gal for control of a wide range of leaf spots. Do a compatibility test. Can be mixed with **Sett**, **Nitro-plus 23**, **Stimulate** and **X-cyte**.
- Ensure good coverage when using **Golden Pest Spray oil**.
- **Golden Pest Spray Oil** and **Top Cop** are approved for use in ORGANIC CROPPING
- Never mix **X-cyte** with **Stimulate**
- **Stimulate** is applied at knap sack rate of **5ml/4 gall**
- Mist blower rates are twice the knapsack rate.
