Golden Pest Spray Oil

Golden Pest Spray Oil is a natural miticide and insecticide that provides excellent control of pests such as mites, thrips and aphids. **Golden Pest Spray Oil** is a patented formula that uses a unique mode of action to control difficult pests.

Organic Farming

Golden Pest Spray Oil fits within a prevention or IPM program has a control for mites and other pests on many different crops including beans, cabbage, cauliflower, celery, corn, cucurbits, eggplants, lettuce, potato, pepper, tomato, ornamentals, and fruit trees.

Mode of Action

Golden Pest Spray Oil controls all life stages of most soft-bodied insects and mites. **Golden Pest Spray Oil** suffocates pests by blocking airways and preventing gas exchange.

Mite Control

Golden Pest Spray Oil has the ability to control eggs, which allows the product to better control mite populations. **Golden Pest Spray Oil** is a contact miticide and insecticide. It controls both the adult and any developing stages of mites. Good coverage will improve the efficacy of the product.

SAFETY: Golden Pest Spray Oil is derived from Soybean Oil, a natural ingredient. This active ingredient is considered a food grade material. There is never a residue or odd taste to be concerned with it so it is safe to use around children, pets, yards, playgrounds, or other areas.

Golden Pest Spray Oil is listed by the Organic Materials Review Institute as a Botanical Pesticide for use on food crops.

Benefits of Using Golden Pest Spray Oil:

- **All Natural & Organic**
- **Safe Around Children and Pets**
- **Effectively Kills Pests on Contact**
- **Never Leaves a Residue or Odd Taste**
